The "Call Driver" Linkman allows you to quickly and discreetly notify drivers directly from the porter's lodge or from the loading points throughout the parking area.

Reception also of the lift / loading door.

HOW TO USE:

- The Quadro Pager is delivered to the concierge after having made the accreditation.
- When your turn arrives, the Pager PT-D400B vibrates, rings and flashes (13 blue LEDs) until it is returned to its housing at the porter's lodge or at the point of loading.
- Ability to send messages (4 characters).
- It is a modular system composed of: keyboard transmitters, Quadro Pager, Disk Pager, chargers, signal repeaters.
- Range of action 100 meters extendable to the entire area of the room with signal repeaters.
- Up to 9999 Disk that can be connected to each keyboard.
- Chargers for 15 / max 20 pager.

The system is completely modular and expandable so it can be adapted to any need.

Important: the technical characteristics of this system comply with the EN 300-220-3 standard, for which it is NOT necessary to ask for any license or to pay any ministerial fee.
