LM-D802 Display Switchboard
8 displays + 16 memories

- ☐ **"Call Nurse"** increases tranquility of the work of health workers and patients in the rooms: assistance can be called simply and quickly via wireless buttons.
- ☐ The display, located in the control room, will alert you with a visual signal, play the number of the room or bed from which the call comes.
- ☐ The mobile pager will alert the staff from which the room / bed arrives.
- ☐ The call can be "canceled" by the staff with the special white button to be placed on the head of the bed.
- ☐ Easy to install: the wireless buttons can be fixed to the wall or to the table.
- ☐ The range of action is 100 meters extendable as you wish with the signal repeaters for the LM-K100S buttons.
- ☐ Up to 100 buttons can be connected.
- ☐ It does not require licenses.
