Panel Pager PT-D400B:
practical and robust pagers to deliver to customers to call them individually with discretion.
Vibration, beep, intermittent leds.
The display shows the door to go to.
It manages up to 999 pagers.
Colors: black, orange, green.

Transmitter switchboard with call keypad.
Sending alphanumeric messages of 4 characters.

Ideal system to call customers waiting for the turn with ease and discretion.

Benefits for the company and for end customers:

1. Customers will be able to wait their turn without having to constantly look at the queue monitor or stand in front of the desk.
2. During the wait, the customers will be able to dedicate themselves to visit the show room and the purchases.
3. Increased efficiency and better image perceived by customers.
4. Sales increase.
5. Easy to install.
6. No wiring.

*Delete the queues!
Use the waiting
time productively.*

*Easy to use, vibration,
ringtone, flashing LEDs.*
